

THAI UNION EUROPE

OUR COMMITMENT TO ISSF

As Founding Members of the International Seafood Sustainability Foundation, Thai Union Europe strongly support all initiatives undertaken by ISSF.

One of the critical initiatives of ISSF to promote responsible and sustainable tuna fisheries is the Proactive Vessel Register (PVR). Thai Union Europe has made a strong commitment to increase the amount of fish that we source from vessels that are part of the PVR. We have been and will continue to push forward with our commitment to increasing our sourcing from vessels on the PVR. To provide transparency, we will report regularly a progress on this initiative.

- Working with our suppliers to make sure that they are providing us with an increasing amount of supply from vessels on the PVR
- Directly engaging with our suppliers and boat owners encouraging them to partner with us by joining the PVR
- Implementing an internal program to review and monitor our progress, and find innovative ways to increase our sourcing from vessels listed on the PVR

Since 2016, 100 percent of the tuna purchased by Thai Union Europe has been caught by large-scale purse seiners that are on the PVR. In addition, Thai Union Group is committed to increasing purchases of tuna sourced from P&L vessels and handlines on the PVR. From October 2020 to September 2021, we sourced by quantity over 80 percent of our tuna caught by P&L and handline vessels that are on the PVR.

In 2021, Thai Union Europe passed the ISSF Participating Company Audit Compliance requirements for the reporting period of Q4 2019-Q3 2020, independently conducted by MRAG Americas, with 100 percent compliance.
